Amazon's massive scale makes it a target for hackers, and it has been on the receiving end of online data breaches. But that doesn't stop it from competing in the e-commerce market, and it has plans to get even bigger. Amazon wants to take on Alibaba in China First, there's the Amazon China business that started in 2012, and which is managed by Jeff Bezos. The company already had a global footprint and had already made its name in the USA when it started to expand into China. It just had to make sure it couldn't be easily shut down. "In the global market, there's a fair amount of transparency on who's doing what, who's doing what and where the money is. Not in China," founder of tech analyst firm CB Insights Roger Kay said of Amazon's China business. So Amazon decided to 2d92ce491b
