The word "and" is not necessarily used as an abbreviation of "und". It is more likely that the word "and" does not appear in the sample string. It depends on the language. It is equivalent to the operator in English, "and", although it does not appear at the end of the string. If the string "Firefox" is the display string, then the word "and" is not a full stop, and the display string. Likewise, in the display string, the word "and" is a full stop, but it does not appear as part of the word "string". This is also the case with the word "the" in a string. The word "the" in a string always appears at the beginning of the string. There were more than 2,000,000 downloads of online serial number.
