scripting language to generate automation code. It allows programmers to create a new application with an interactive interface using a set of commands (scripts). The scripting language is a combination of standard commands that come with AutoCAD and a set of commands that are created by CAD programmers. The scripts are stored in a database that contains all commands and can be updated. History AutoCAD began life as a version of AutoDraw, an

application created by Autodesk in 1982. The same codebase was then used to create AutoCAD, an Autodesk product, in 1987. A brief review of the history of AutoCAD, starting in the 1980s, is provided by Autodesk. While the company's name is Autodesk, AutoCAD is produced by Dassault Systèmes, as is AutoCAD MEP, which was launched in September 2007.

Open the Autocad Autocad Desktop Create a new drawing. Name it and make it as wide as you want. Open the drawing. Create a new drawing. Name it something else. Create a new layer. On the layer, create a new viewport and set the scale to 15.5. Set the pen to black, set the arrow to a double chevron and the hatch to a square. On the new viewport, create a new drawing. On the new drawing, create a rectangle and set the size to 0.5. Go to the layer and then to the viewport. On the viewport, change the scale to 1.0 and zoom to 1.0. Go to the layer and then to the viewport. On the viewport, make sure the layer is on top and that the scale is 0.5. Make the viewport wider by dragging the sides or make it shorter by dragging the bottom.

Explanation On the top layer, we created two new drawings and set the viewports to 15.5 scale. On the left, we created a new layer and we created a viewport on the new layer. On the right, we created a new viewport, set the scale to 0.5 and changed the layer to on top. ## UPDATES ## 1.3.1 - 2015-07-09 - Add to the menu "Open folder". ## 1.3 - 2015-06-23 - Make it easier to create the viewports. - Copy the drawing for the dxf. ## 1.2.1 - 2015-05-18 - Add to the menu "Load a folder". - Add to the menu "Save a folder". ## 1.2 - 2015-03-08 - Add to the menu "Save a drawing". ## 1.1.1 - 2015-03-04 - Add to the menu "Save a drawing". ## 1.1 - 2015-02-25 - Add to the menu "Load from the internet". ## 1.0.1 - 2015-01-29 - Add to the menu "Load a folder". ## 1.0 - 2015-01-13 - Add to the menu
