

DownThemAll! For Chrome Crack Keygen Full Version Free Download PC/Windows 2022

Grab objects on one or multiple webpages Once DownThemAll! is installed in the Chrome browser, you should notice a new icon in the toolbar area. If it is not visible, try clicking on the "Extensions" icon and pin DownThemAll!. Clicking on the DownThemAll! icon reveals a popup menu that you can use to search for downloadable items on the visited webpage. Moreover, you can run DownThemAll! for all the opened tabs, which enables you to grab all the items in one go. Advanced filtering and renaming options The DownThemAll! window places the multimedia files separate from other downloadable objects. It displays all the pages in a list, alongside their description and a smart filter for choosing the types of files to grab and excluding the unneeded ones. DownThemAll! can download executable files, archives and documents, as well as multimedia files (video, audio and images), all in batch. Support for wildcards and regular expressions is provided, which allows you to enter custom filters in a dedicated field. Moreover, renaming masks are available to advanced users, which allows the quick assigning of names to downloaded items. A list of tags is displayed to help you, in case you are not familiar with the concept. More than a standard download manager for Chrome DownThemAll! is definitely an interesting add-on for Chrome, as it helps you grab images, files and links on a webpage easier and faster than a standard download manager. Its plus is that it can automatically detect the downloadable items and help you refine the search to only get the file types that interest you. Moreover, the download manager offers you full control over the downloads and allows you to pause and stop any item with a click. Possible Issues When Installing DownThemAll! On Chrome: Downloading a lot of items from one webpage can overload your connection, and slow down your internet speed. In this case, you should install DownThemAll! on

What's New in the DownThemAll! For Chrome?

Downloads a single item from a webpage You can download a single item from a webpage by using this web browser extension, which is also available for Windows, Mac and Linux. The extension is designed to make the process as easy and fast as possible, and it is a must-have tool for any webmaster. It is a simple solution to make regular downloads easier and faster. When you want to download a single file or an archive from a webpage, you can visit the Add-on Gallery to download the extension. The installation process is not difficult, but you need to be aware that you must add the extension to all the Chrome browsers. A warning message is displayed when the extension is downloaded for the first time, which indicates that you must add all the extensions you are using to the device. Features: Download a single file, document, image or multimedia from a webpage The extension only allows you to download a single file, document, image or media from a webpage. It works faster than a download manager and it only works for the files on the website that you visit. You can customize the downloaded file names, and add your own logo, before downloading a single file from a webpage. It displays all the webpages from which you can download a single file or folder. You can also filter them according to the type of files you want to download, by selecting type, file size, file extension, etc. Filtering files You can use the filtering options to choose the files you want to download. You can select files by their size, file type or the browser that they are generated for. Downloading multiple items You can also download multiple items from the webpages. It is possible to download more than one file at the same time, which allows you to speed up the download time. The only limitation is that you cannot download more than 100 items at the same time. You can also filter the items by the size, type, platform and even the file name. Filtering file types The files can be downloaded in.zip,.tar,.tar.gz,.7z,.rar,.txt,.doc,.odt,.docx,.xls,.xlsx,.jpg,.pdf,.png,.gif,.html,.zip,.gz,.tgz,.deb,.rpm,.iso and.exe files. Shortcut to the download manager You can right-click on any item you are downloading and press "Download" to start the download. However, you can customize the shortcut by pressing Alt+B. The download is much faster than with a standard download manager. Automatic updates You can get the latest version of the

System Requirements:
