What's New In?

- Play and pause YouTube videos. - Play or pause the currently displayed video. - Adjust the volume of the audio track. - Select the full-screen mode. - Share the current YouTube video on Facebook, Twitter and Google+. - Add the current YouTube video to your Favorites list. - Download the current YouTube video as an MP3, AVI, FLV, MPG or WMV file. - Download YouTube audio files as an MP3, AAC, M4A, OGG or WMA file. - Export YouTube content as an MP3, AAC, M4A, OGG or WMA file. If you want to download videos from YouTube, then you need to install a player. However, when you are searching for one, you will notice that it is extremely hard to find a good YouTube downloader. To make things easier, we have decided to provide you with a YouTube downloader that can download any video from YouTube. The application is called Beat2Bit and it is easy to use. After you have installed it on your computer, you will simply go to the website and search for the video you want to download. After selecting the clip, you will see a detailed description of the video. If you want to download the video in a different format, simply tap the menu button and change the format of the video in the dropdown menu. Next, tap the download button, which is located in the upper right corner of the video you wish to download. Once the download is complete, you can use any other applications or transfer the video file to a portable device. **Beat2Bit Features:** - You will be able to download videos from YouTube. - You can customize the downloads by selecting the target format. - You can simply start the download by tapping the download button on the upper right corner of the video you want to download. - You can view the detailed description of the video. - You can customize the format of the video by tapping the menu button and changing the target format from the dropdown menu. - You can easily share the video on Facebook, Twitter and Google+. - You can easily download videos to your portable devices. Turn your Google-enabled device into a portable YouTube video player for offline viewing. Your tablet, smartphone, notebook or other Google-enabled device (Android, Windows, Blackberry, iPhone or iPad) can serve as a portable video player for accessing the online library of YouTube videos. However, you need to download a YouTube video downloader to your device in order to download videos from YouTube without an Internet connection. **How to download videos from YouTube:** Download YouTube Video Downloader app on your tablet, smartphone, notebook or other Google-enabled device. Navigate to the website www.youtube.com. Browse the video you want to download. Tap the download button
