This latest version of Canon MP Navigator EX for Canon PIXMA MX850 is the latest Canon developed software for managing your inkjet printers. It can be very helpful in order to manage your ink cartridge and save a lot of time. It has an easy to use user interface that will help you to manage your printer. This software offers the following features: Manage Your Cartridges This software was developed so that you could easily check the ink level of your ink cartridges and manage them in order to save ink and reduce the cost of ink for your devices. This feature will also allow you to update your printer firmware and do a lot of things, as you can see in the screen shot below. Photo Scan This feature allows you to scan a document or image using your Canon PIXMA MX850 Wireless Inkjet Office All-In-One device. Using this software, you can easily check the quality of your scanned image. The feature can help you to decrease your scanning fees and save some time. The scan quality settings can be changed in order to easily manage your inkjet printer settings. Graphics Scan Using this feature, you can add graphics and text to your scanned documents. The graphics and text can be easily selected and edited using the software. The text can easily be cropped, and you can also add different effects to your graphics. Image Edit Using this feature, you can easily apply simple image effects to your scanned images. You can apply various effects, including the effect that can blur the edges of the scanned image. Using this feature, you can also edit your scanned image, such as cropping it and adding a border
