You can click Inspect item to inspect the amount of weight given for "Drops of Water" 7. You can also click the Plus to Plus button to add more. Mar 22, 2011 After alot of requests we added new cheats for enemy drop spawning and item stealing :) Mar 22, 2011 When starting the game keep your cursor over an enemy to check it's health and condition. Then if the cursor goes over the enemy three times quick you will see that it is affected by the condition which appears to be random between "Soaked", "Rarely", "Rarely" and "Soaked". This is only different when the enemy is recently spawned. Soaking a "Rarely" enemy, even though it was rare, will make it so they won't be spawned again any time soon. This causes the enemies to show up as "Rarely" for a while after spawning, allowing you to steal items off them by hovering your cursor over them for a few seconds. It also increases the chances of you getting an "Interact with an enemy using a decoy" when you combine raindrops with decoys. At the end of the round you will also see that enemies with items on their bodies will have a small number indicating how far away it is from your inventory bar. Although not all enemies have items to drop, this has been noticed in the non-steam version. The easiest way to place decoys is to hold the AD button and touch the decoys (Having a move kit enabled will allow you to touch the decoys, even on an enemy or in water.) Jul 7, 2011 We need help. Vampires have become slightly overpowered at the very end of the game when you are being swarmed by small parties. The problem is that while all the decoys in the game are items that can be placed, there are only a few decoys that can be placed in each specific area. These decoys are placed automatically and they can only be placed in that area. The other items in the game (decoys, enemies 3da54e8ca3
