What's New in the?

This screensaver project started in 2004 as a 2D screensaver, but one day, I got an idea to build a 3D version of it. Actually, the building process started on an other project to continue to build as a 3D screensaver. When I posted the screensaver in early 2004 I won the Screensavers Star Awards in the "Best New Screensaver" category. Today, I'm still very happy with the screensaver quality. I was working with 2D screensavers for several years, so I know how to build a good 3D screensaver. If you like my project, I would appreciate it if you give it 5 stars and write about it in your blog or on your forum or in any other way that you can share the project to the world. This helps more people to download and try my project. If you have any comment or question, please feel free to write me or visit the screensaver forum on the net and write me.
