

Collectorz.com Book Collector Activation

Collectorz.com Book Collector is a free software to help you manage all your book collections. It is a cataloging application that allows you to perform searches through a database of books as well as through the Internet using Google, Yahoo, Amazon, eBay, Bibliofind and Abebooks. The application supports a variety of search criteria, such as ISBN, author, title, publication year, series or subject, that you can use to find books. It can be used to sort books by different criteria, and you can keep track of the items that were loaned to other collectors. The entire book collection, consisting of books, e-books and audiobooks, can be exported to HTML, XML, plain text and CSV formats. Moreover, you can import files, provided that the file format is CSV or plain text. This book cataloging software helps you search, sort and compare books, and it offers the possibility of searching the Internet, as well as scanning books directories, private libraries or bookshops. The application is simple to use and it offers many useful features. Collectorz.com Book Collector System Requirements: Platform: Windows Vista, 7, 8, 10 CPU: Pentium 4 RAM: 128 MB Free Hard Drive Space: 100 MB Other: Internet Connection (dialup, DSL or cable) Collectorz.com Book Collector License: Collectorz.com Book Collector is a free software.
