Deadfall: Badlands Genre: Shooter / Action Developer: Recoil Publisher: Recoil Platform: PC Interface language: English Screenshots: Description: This game is essentially an action shooter in the sandbox style in which we play as a simple and narrow-minded farmer who is trying his best to save his farm and welfare. The working day from the moment of launch to the final takes about 8 hours. After each successfully completed level, we get points. From the point of view of the plot, "Badabum" most of all resembles the passage of the third part of our franchise: we are attacked by enemies, sending us after death, our only weapon is, in fact, our garden. We are currently managing the entire gameplay, starting from very simple levels. You can play with two users at once, to whom we constantly connect via the network. Total balance for the entire game = 1000 points. The difficulty level ranges from 2 to 5 (4 is more than enough for the game). The Next Xbox games appeared in 2013, but only now such games as Metal Gear Solid V: The Phantom Pain, Metal Slug Zero, Assassin's Creed Odyssey and Dying Light have been added to them. Several "illegal" game masterpieces that passed through various hands are now brought together and made available to everyone. On the agenda: the authors of StatSoft, Smash 4, Ryse: Son of Rome, FIFA 13 and God Of War 3. Players Republic Genre: Arcade Developer: Edge Publisher: Electronic Arts Platform: Windows / Mac Cree
