Customize the icon of iTunes and access the other music applications from a unique icon. Categories: Tags: Editors' Rating: User Reviews: None yet 40 By Gobbie Great design. Sadly there is no compatible iTunes 12 folder. 4 By LbKF1 This is great. I totally recommend it. 5 By Naeem al-Hafez Simple and beautiful designs 5 By TmSparkman Great pack of icons. I love the fact that they are part of the human face and can be used for a lot of different themes. By kkcred Very good pack of icons! Perfect for my theme with the face of iTune. 5 By trentor2 These icons are amazing. They perfectly match my theme. Would love to have more themes like this. 4 By Marmax07 I'm using this in my new theme which is iOS 7, and the idea of a program being featured in the human face is very impressive. Also, my opinion is the best theme. 5 By Jabra_Pink_Song These icons are beautiful and fit my style perfectly! 4 By CCXena I love this set of icons for my theme. Wish this theme were available. 5 By vozhyan This icons are very great! And I like about the edge in the icon. 5 By skinwatcher I love everything about this icons. I downloaded them to my theme on iOS7.5 and love it.Q: One textbox for two null-validation messages I've currently got two validations that check if an integer number is not equal to (0) and not equal to (0). I have it working but I'm kinda thinking it can be

improved since I have a lot of the same thing in the view/viewmodel. Is there a way to have one message box? Or am I just over thinking it? I need it to be a solution that does not require any changes to the project itself. Kinda like this: What it currently looks like A: It really depends on the whole problem you are trying to solve. There might be some
