Autodesk EAGLE is the most
popular 3D modeling package in

the world. It is currently installed in more than 600,000 workplaces worldwide, and was first made available on Windows 8 last year. Today at CEBIT and Embedded World 2014, Autodesk unveiled EAGLE 2014, based on the latest version of the Fusion platform. 360. This means that now EAGLE is not just a 3D package, it is also an engineering analysis tool.
