All cameras and sensors in the suits capture the exact movements of the players in this way, which means that the player's body is accurately animated in game by CPU physics engine. The CPU animation is perfectly recreated and has the advantage of being able to include tactical data that is not currently available through visual cues and player animations. Check out this gameplay video that reveals some of the new features that players can see: Player animations have been improved, with sprint and foot movement animations being refined. There's also a new 'reflected' player movement animation which is used when a defender is contacted, enhancing the defensive tactics in game. The audio engine has been improved to enhance the fidelity of the action on the pitch, including more realistic sound effects of kicks and head shots. There's also a new crowd sound engine and new crowd sounds. The players can now be controlled with the latest Apple TV remote control. FIFA 22 introduces "HyperMotion Technology" (file: FIFA22HyperMotionTechnology_preview.mp4) HyperMotion Technology gives a more realistic representation of real football MacStadium system is a new matchday fixture that has players from multiple teams playing on the same field New Jumping animation technique used to add more leaping action New "Break The Line" tactic that uses defensive overloads to attack the opposition defence New "Club Swipe" tactic that enables a player to destroy his opponent's pass from a downfield position New "Altered Timing Of Aerial Dribbles" tactic that gives a player more time to release the ball New Player AI, providing better tactics and decision-making New "Reflected Player Animation" technique for when a defender gets stuck under the ball Players can now dive to avoid head contact or a sliding challenge This game is available

now on the App Store in the App Store and on Google Play in the Google Play Store. Read on to get a closer look at the key new features and gameplay improvements introduced in this title.

FOOTBALL BODY ANIMATION The new motion capture based animation system features both movement and collision. Players are able to move more realistically than ever before, creating increased depth in their movement on the pitch. They also react more realistically to collisions, whether it's a shot on goal from a goalkeeper or a head on collision with a defender. Players can take on more physical challenges too, with

Fifa 22

The biggest game in world football returns bigger and better than ever, packed with the features you love and new innovations. FIFA is not just a game. FIFA is a game changer.” – Peter Moore, Chief Executive Officer of Electronic Arts Expanding on the massive user feedback from the last iteration, FIFA 21 will feature improvements across every aspect of the game, from the way you play to the decisions you make. A first in the FIFA series, this year's game puts a host of firsts. Action and Player Intelligence In this year's edition, every aspect of the game has been re-imagined in order to cater to the most faithful, fans, while a new

AI system creates more reactive and intelligent footballers. * New LightweightPlayer AI: New lightweight AI will provide your teammates with some added intelligence, helping guide the ball and bring the team together in the game. * New Speed Control: Players will now naturally slow down as they receive the ball and make runs or change direction. Run more, pass less. * New Real-Time Player Trajectories: Players will now move naturally in real-time on the pitch, driven by their cues, rather than scripted routines. * New One Touch: By creating the most natural and realistic passing and shooting, One Touch allows for more fluent football with a quick new way of controlling it. * New Attacking Framework: Recruitment and Recycle: Gone are the days of having to manually train your defenders – now it is more natural and fluid, giving you more of the player intelligence experience. * New Human Touch: Sprint: New way of running, making the game more fun and more fluid. This sprint is combined with the more intelligent Player Trajectories. * New A.I. Variance: Create more tactical options and keep an eye on your opponent's set-pieces and intercepts. Playstyles and Tactics FIFA 21 sees a leap in play styles, with more control over the centre of the pitch. With more reactive passing, running into final third, and play styles that are more offensive, you'll find yourself in control when the ball is at your feet. Control Your Game From Anywhere The Control Pad is just one way of playing the game this year. Whether you play with a controller or the touchscreen, make your bc9d6d6daa
