Christmas Countdown Nice Clock is a useful and easy to use Windows gadget which shows you the remaining days / hours / minutes until Santa is coming to town. b7e8fd5c8

Christmas Countdown Nice Clock Crack+

----- Christmas Countdown Nice Clock... The Santa Clock is a small java application that will show you when Santa will be here and provide you with a countdown until Christmas. You can easily move the clock, change to another day or just start with the countdown. Easy to use, very useful. This is the simplest Santa clock I've seen. You can move the clock with the arrows in the top bar, add a new date or add your desired time. You can change the time, then press "Go" and the clock will show the specified date and the time. The clock can be seen if you have multiple monitors, maybe you can use this to your advantage. After installing, it will show in the system tray. Drag the systray icon over the icon of the clock in the lower right corner and press the "Go" button, the clock will show the specified date and the time. The Santa Clock is a very simple yet very useful application. It is also one of the better looking Santa clock I've seen. I really like the fact that it "just works". Christmas Countdown Nice Clock Widget is a useful and easy to use Windows gadget which shows you the remaining days / hours / minutes until Santa is coming to town.
