Despite Windows 7 being out for a while and getting hit with a series of updates, Microsoft is still fixing bugs and errors. There are a bunch of new errors for the day before the Anniversary update was supposed to be released. This is especially true if you wish. To get the errors on your computer, you have to go to Start > Control Panel > System and Security > System. Under the System and Security pane, there will be a Microsoft Windows Tiny7 alternate CD experience link.
