If Google Chrome happens to be your browser of choice, then you should definitely give Cute Animal Tab a quick run-through. In just a few words, this extension brings forth an impressive and well-organized collection of adorable animal pictures and videos from some of the most popular social networks (ex. Twitter and Instagram) directly into your browser's new tab page. Cute Animal Tab for Chrome aims to serve a dual purpose - first, to provide cute animal entertainment to eager browser users, and second, to help simplify the task of exploring new networks and reading articles on all different topics. Instantly access live animal video feeds and play them directly in your new tab section. The extension itself is pretty straightforward, however, it has been tested to work only in Google Chrome. How to install: 1. Open Google Chrome extensions page (hit the Chrome menu button and select Tools). 2. Open the Extensions page. 3. Click on "Load unpacked extension...". If you're a developer, you can dig into the source code of the extension on GitHub. What's New Version 1.5.0 (2020-02-24): Fixes some issues. Version 1.4.1 (2019-12-18): Improvements. Cute Animal Tab For Chrome

Bring cute animals to your Chrome browser each time you open a new tab Cute Animals Tab: Bring cute animals to your Chrome browser each time you open a new tab Disclaimer: Cute Animal Tab for Chrome is not affiliated with Facebook, Twitter, Instagram. All the images and videos are captured by myself from the Internet. If you find any copyright issues, then let me know. Don't you hate it when you use your tablet (smartphone) to watch a streaming video and when it's in your 5th minute of the trailer and then you have to stop it and start over again because you lost track of the time and didn't pay attention to the picture you were already watching? That's frustrating, isn't it? Are you going to get the same frustrating experience and even lose some of your precious time? If your answer is YES, then it's time that you deleted that piece of waste of technology (smartphone) from your life. What's the big deal with wasting your time with a smartphone or other smartphone "shortcuts" that push your boundaries (just like the time you're wasting with that stupid streaming video)? Do you honestly think that these "smartphone shortcuts" are worth your time and troubles? I don't think that they are. If you don't believe me, just watch the video below and you'll see for yourself that no matter what the movie is, the ending will always be the same: What's the big deal with wasting your time with a smartphone or other smartphone "shortcuts" that push your boundaries (just like the time you're wasting with that stupid streaming video)?
