Games like the Fifa series are fairly timeless games that are meant to last you years. But if you have a small budget, you may not be able to buy every title. "People may wish to look at it as the best system they can purchase, even if it's only temporary," Steve Albini said. so even if you have a good system that will let you play it, it may only be temporary. But you'll get to play more than you would with a far cheaper system. Many people don't know how to read what Sony is doing, they talk more about what Sony is doing in their view. I'll just let it go for now. My understanding is that they are.
